Practice Ice Information

Michigan High School State Championships 2012

Practice Ice is available to teams and individuals on a first-come, first-served basis, at no charge. Each team competing in the Team event on Sunday is entitled to one 20-minute (shared) practice session; each individual competing in 1 or more individual events is entitled to 2 practice sessions.

There are 12 "individual" practice ice sessions on Saturday; we are limiting each session to 24 skaters, first-come-first served (each skater may sign up for 2 sessions)

For dancers, sessions p03, p04, and p05 will have music played. Our goal is to play music for 2 different dances on each session – based on advance signups (for example the first Prelim dancer to request a dance session will define which session is to be used for Preliminary dances, then all other skaters requesting a preliminary dance session will go to that session). Depending on signups, one of the 3 sessions may end up with 3 dances played. So if you want dance sessions, contact Janna early...

There are 9 Team practice sessions available on Saturday, and 4 Team practice sessions on Sunday. We are limiting each Team Session to 2 Teams. There are several teams who are not planning to arrive until late Saturday or early Sunday so we ask that you sign up for Saturday sessions if possible, to give those teams a chance at the Sunday slots.

You may sign up for your specific sessions when you arrive at the rink, or by emailling Janna Gates at Janna.Gates@53.com if you want to pre-reserve.
