## *Survivor Event*

Skaters in each level will compete to see who can hold the longest spiral, spin, and landing position.

An overall winner will be determined at each level by adding “duration of spiral in seconds” + “duration of spin in seconds” + “duration of landing position in seconds”. The skater with the highest total wins. Boys may compete against girls in this event. Coaching from the sidelines will be permitted during this event.

- The spirals will be skated one at a time and will be timed by two officials with stopwatches. Timing will begin when the free leg reaches a parallel position and will stop when it falls below parallel. No change of foot is allowed. No catch foot is allowed. Proper edge must be maintained in levels pre-juvenile through senior or no credit will be given for the spiral. The official time will be the average of the two officials’ recorded times.
- The spins will be skated one at a time. Any spin, including combination spins with one change of foot are allowed. Timing of the spin will begin when the skater steps on the spinning foot and will end when the skater falls or steps out of the spin, in the manner as described above.
- Jumps will be skated one at a time. Jumps will be timed beginning at the attainment of an acceptable landing position and will stop when the landing position breaks. The official time will be determined by the method described above. A fall results in a time of zero seconds. No retries will be allowed.

### INTERPRETIVE SHOWCASE/ IMPROVISATION

Skaters must skate at the same level as their Free Skate

This event is a performance choreographed by the unaided contestant (NO COACHES OR PARENTS). All competitors in a group will use the same music. Performances will be judged for theatrical and artistic qualities, from an entertainment standpoint. Even though technical skating skill and difficulty will not be rewarded as such, skating must still be the major element of the performance and of sufficient quality to support the theatrical elements chosen. Jump difficulty is not rewarded in interpretive showcase. If jumps are included in your program they should be those that you can perform with style, flow and confidence. A total of 3 different single jumps are permissible. No Axels are permitted Beginner through Preliminary. Half jumps do not count toward the jump total. No combination jumps. No double jumps at any level. The competition committee or the referee reserves the right to separate combined groups listed below or combine levels in order to maintain equitable group sizes.

LEVEL	LIMITATIONS	MAXIMUM TIME
Beginner (No Test)	Three jump maximum No axels or doubles or combinations	1 Minute
Pre-Preliminary	Three jump maximum No axels or doubles or combinations	1 Minute
Pre-Preliminary	Three jump maximum No axels or doubles or combinations	1 Minute
Pre-Juvenile	Three jump maximum No doubles or combinations	1.5 Minutes
Juvenile	Three jump maximum No doubles or combinations	1.5 Minutes
Intermediate	Three jump maximum No doubles or combinations	1.5 Minutes
Novice	Three jump maximum No doubles or combinations	1.5 Minutes
Junior	Three jump maximum No doubles or combinations	1.5 Minutes
Senior	Three jump maximum No doubles or combinations	1.5 Minutes

NOTE: Timing for the interpretive program will start with any kind of movement of the body.

The program may be shorter than time shown, but may not exceed it.

The Interpretive events will be conducted as follows:

1. Competitors will warm up together, and when asked to clear the ice, all competitors except the first skater will be led to an area away from view and out of earshot of the competition ice.
2. The first skater will hear the music again.
3. When the music finishes, the second skater will be led to an area where they can hear the music, but not see the ice. The first skater will then skate their program.
4. When the second skater takes the ice, the third skater will be led to an area where they can hear the music but not see the ice, and so on.

The above procedure ensures that all skaters hear the music the same number of times, and no skater will see any other skater's performance until they have already skated their program.

### **SHOWCASE PAIRS**

This includes mixed pairs, or pairs of the same sex. Groups may be divided by age, based upon entries received. Each judge will award one mark to each pair for presentation.

Skate time durations adhere to National Showcase requirements. These events are designed to portray a character or theme through the use of music and costume. One mark will be awarded based on the following criteria:

- 1) Entertainment value. This principal element is comprised of showmanship, artistic, and theatrical qualities, and audience appeal.
- 2) Music and choreography. The performance must fit the music. The routine should use the full ice surface with the skating elements reflecting musical interpretation. Creativity and originality will be credited.
- 3) Skating. Skating elements should carry out the mood of the music/choreography and will be judged on how they enhance the performance and interpretation of the music. Difficulty of moves/elements will not be a factor. Choreography and skating ability should be consistent with the skating level entered.
- 4) Costumes and props. Costumes and props should reflect the music and must be appropriate for the performance and age of the skater. A prop must be incorporated into the performance and not just scenery. Props must be carried on and off the ice by the skater in a reasonable amount of time.

If insufficient entries are received, levels may be combined at the discretion of the referee.

#### **Program duration/Elements (no minimum requirement):**

- No Test, through Pre-Juvenile – 1:40 minutes maximum (No Test – Pre-Preliminary: 3 jump maximum – no axel or double jumps permitted. Preliminary: 3 jump maximum – Axels are permitted, but no double jumps allowed.)
- Juvenile through Novice – 2:10 minutes maximum
- Junior and Senior – 2:40 minutes maximum
