for an ALL YOU CAN EAT pizza fundraiser for

Carlos Moreno

Our dear friend has been living with a donor kidney for 15 years. This past year his donor kidney started failing him. He's been on dialysis every day and is anxiously awaiting a new kidney. However, in recent months, he has gotten so sick, he isn't strong enough to undergo the transplant surgery. With deteriorating health, Carlos had more bad luck. His apartment caught fire and he lost almost everything. With stacking medical bills, relocating and starting over, Carlos is spending more time stressing about money than he is about getting healthy.
