- Skaters must compete at the appropriate level, or one level higher based on their US Figure Skating or ISI freestyle and moves-in-the-field test levels as of November 1, 2004 (ISI level equivalency on page one). Skaters may only compete in one level for Jumps/Spins and one level for Moves and must remain at the same level for the entire season, including the State Championship, even if the skater tests beyond the level requirements during the season. Level C skaters may not skate on Level A or B teams except for the Longest Element event. *Teams not adhering to the appropriate level restrictions will be disqualified for that event.*

- Each team will be allowed one retry per team per level (A, B, C) at Team Competitions. The second attempt has to be the exact same element as the first attempt by the same skater. The second attempt will count regardless of whether or not it was better than the first attempt. The coach would need to let the skater know in advance whether or not they should retry the element. The skater would signal for a retry immediately by raising their hand. The Referee would raise their hand in return in acknowledgement of the request for a retry.
- A skater may only participate in the Longest Element once per season, unless the team has fewer than 3 skaters on their official team roster.
